

February 06, 2002

Dear Peggy,

We are pleased to tell you about our son, Mack, and the progress he has made since working with TLC. As parents, we are extremely pleased and proud of his accomplishments.

As you already know, Mack is a great kid who is well liked by both his peers and teachers. However, he was falling behind in some of his work, particularly math and reading, and we felt Mack needed to learn the basic fundamentals of these subject so it will not hurt him later on. After tutoring him at home for several months, we decided to seek more professional help and that's when we came to TLC.

TLC is a first class organization with a casual atmosphere which makes learning fun. From Mack's initial assessment with Shauna, he truly enjoys going twice a week to work on his education. The education program designed by Lorrie has already produced positive results for Mack as he went up a letter grade in reading. We feel one of the advantages with working at TLC is the quality of tutors. Whether it's Dr. Jack, Kimberly, or Mrs. Ewing, they all do a fantastic job at making learning fun.

In short, we heartily recommend TLC - for their professionalism, their record of achievement, and their energetic approach towards education.

Sincerely,

Roger and Cathy Duffy
