Dear Carol,

Thank you so much for your years of service as a member of the Board of Trustees of the Pennsylvania Branch, International Dyslexia Association. As an all-volunteer organization, we count on the interest and dedication of people like you to help keep the organization strong and growing.

Through your efforts and support, we have continued to offer an annual conference with nationally known speakers; we have presented the Experience Dyslexia: A Simulation program to well over 1000 individuals -- professionals, parents and community members; we have created a Standing Committee to bring about legislative changes in Pennsylvania that will benefit all children; we have a strong and active regional group in the Pittsburgh area; and we continue to provide information services and to increase dyslexia awareness in communities throughout the state.

We are grateful for your willingness to have served as a Trustee, and we hope that you will continue to be an active, involved member of PBIDA.

Sincerely,

Julia Sadtler
President, Pennsylvania Branch, IDA
